Excerpt

Japanese Headquarters Church

Tokyo, Japan

Therefore, let's become brothers of Jesus. Let's become parents, aunts or relatives of Jesus. Let's make our church a church of loving Jesus.

Let's become a Jewish people which Jesus wished to be. Let's make a nation for which Jesus longed. It is the mission of the Unification Church to liberate Jesus' heart of sorrowful regret by making the condition of indemnity to totally love Jesus. Therefore, those who did not marry yet should become Jesus' younger brothers. They should be younger brothers and sisters whom Jesus loves and who serve God with a more serious heart than Jesus' in order to restore the position of brothers and sisters which Jesus could not love.

Those who are older than 30 years old, older than Jesus, should become elder brothers and sisters of Jesus. They should have a heart with which they cannot but love young people who devote themselves to the church, as the representatives of Jesus. Then, the young people will confide in such elder brothers and sisters. Please have such a relationship in heart.

Then, old people should see young people with the parental eyes of Jesus and love young people with the heart of sons and daughters of filial piety to God. They should have a heart to love the children whom their ancestors could not love. Such an effort will make a relationship as one family and one relative, and then we can expand such a foundation in heart to the church and nation. Without this, it is impossible to make the Heavenly Kingdom on earth centering on Jesus.
