Note: These notes are taken from a video clip of the web page Peace TV. This translation cannot be published as definitive texts and should never be used in the future as an “official” publication of True Father’s words. However, they do provide a good idea of the “spirit” of the message. — Rev. Katsumi Kambashi

“A life of faith cannot be completed within a day. For 10 years and even 100 years, one must continue to pioneer. I am the same too in that regard. Every time I have new things to be done, I need to be newly determined and be able to pioneer something new. I need to offer Jeong Seong every time I have something new to be done, be able to feel guidance from the spirit world, and naturally feel the difference in my relationship with others over years.

Do not forget you need to have comrades in your life of faith and provide an appropriate environment for that. If one dislikes church members and does not provide the environment, without fail they will have problems, for example, being sick, and the spirit world will create such circumstances. So in our life of faith, do not worry but adjust yourself and love people in your environment more than your family. That attitude is precious. In a church community, there are people who are at all different ages, but when you are together at the service and meeting, you must be united. That is important. In your life, you must be able to adjust yourself in the environment you live in, and must know how you can contribute to that.”

“Those who are not finished with registration will not be able to see me. With registration, you will become a new Moon clan and also a new Korean. One must follow their Abel. Who knows if I go and live in North Korea? If you register yourself, your clan in North Korea might follow you automatically. There is no boundary among the people in the same clan. If ten of you go there, they must take care of at least three people and should not make them feel as if there is any boundary between you and them.”

“There will be True Parents’ wedding ceremony on the next birthday. That will be a scary ceremony for those who are not prepared for that day, and they will be left out. I have been in the middle of preparing myself to be on the throne through the coronation ceremony, and there is a responsibility for the citizens of the nation.” (Reading page 74 from his speech file, which has been added on 7.3 by the heavenly calendar) “You say \_\_\_\_\_. Where are True Parents? In \_\_\_\_\_ (the reign of tranquility and prosperity), and therefore, it should be \_\_\_\_\_.”
