Differences Between The Heavenly Calendar And The Solar Calendar

Sun Myung Moon

January 18, 2011

Hoon Dok Hae

Cheon Jeong Gung

Note: These notes are taken from a Peace TV video clip and the web page??? Unificationism. They cannot be published as definitive texts and should never be used in the future as an “official” publication of True Father’s words.

Father asked how many days are different between the heavenly calendar and the solar calendar. He said the number 16 symbolizes the four directions of number 4, the number 3 symbolizes Heaven, and the number 4 symbolizes earth. He also said only in Korea exists the term “K’ak Chi Son” (interlocked hands) which indicates the subject partner and object partner.

He emphasized the importance of a series of events in the first six days of the first month of the second year by the heavenly calendar.

Later, Hyung Jin Nim made a report on his trip to Hong Kong and the Service of Curing by the Holy Spirit which takes place every day at the Cheon Bok Gung. Then Dr. Peter Kim read Father’s speech, titled “Let’s Work Hard at the Lower Position.” Below are some of Father’s words that day.

“When did the four rules of arithmetic (addition, subtraction, multiplication and division) start to be used? Was it before or after the human fall? Nobody has thought of it. Addition and multiplication are like friends with each other, and they cannot be separated. Subtraction and division seem similar but they dislike each other. $1 + 1 = 2$ but $1 - 1 = 0$ and so nothing remains. $1 + 3 = 4$ but if 3 is divided by 4, (the number 3) is gone. How come such mathematics was created? There are single numbers, and then comes the number 10. From there it must go to 11 but how can it do so? Everything has its reciprocal partner, and the physics and geometry which do not have such a concept have been fundamentally mistaken.”

“One who did not meet God but talks about God is an impostor. One who did not meet Jesus but talks about him is an impostor.”
