Tribal Messiahship

Sun Myung Moon

October 21, 2011

Hoon Dok Hae

Ocean Cheonjeong Palace Hotel in Geomundo on 9.25 by the H.C.

Note: These notes are taken from a Peace TV video clip. They cannot be published as definitive texts and should never be used in the future as an “official” publication of True Father’s words. However, they do provide a good idea of the “spirit” of the message. — Rev. Katsumi Kambashi

There were 11 participants at the meeting. Mrs. Yang read Father’s speech titled “Responsibility of the Previously Married Blessed Couples” given on June 4, 1970. Father said in the speech that there are lots of layers in the spirit world and so without being connected in one blood lineage through the Blessing, family members on earth cannot communicate with each other there. Father emphasized the importance of the Tribal Messiahship, with which one must indemnify the position of Jesus.

Father also said when husband and wife are united with each other and pray, Heaven cannot help but give them guidance. Father said if one misses him so much, he would give guidance in their dream without fail, and when we see him in our dreams, we need to think about and realize the reason why he smiles or seems sad in the dream. Father also said to see his sad face from the right side, from the left side, from the front, etc in the dream have all different meanings and so we must examine each dream and learn correct messages of Heaven through dreams. Father said one must find the best time for prayer and pray at that time because the time zone for the prayer is different from each other. Father also said one must pray with absolute faith, and prayer is like a root which must be planted deeply and doesn’t appear in public. Father said if one leads a life of faith such way, they will have premonitions of what will happen that day.

Father listened without making any comments. After the reading, Father talked about fishing: different types of fish, how to place rods, seasons for fishing, fishing boats, good fishing spots, the water temperature of the sea, bait, and so on.
