I would like to ask this of you: **the road and the destination have been set, don't miss this opportunity. Right now at this time, what Heaven wishes for is to be together with me.**

It took much effort for heaven to find and establish this nation. Even just to raise the Han (Korean) people was an ordeal. Heaven blessed this nation. True Parents were born and through the True parents, blessed families from a new lineage could be formed. In their own way, blessed families did make effort. They went out to the world and worked hard to fulfill their mission as national

messiahs. However, the problem is that they could not create the foundation for which Heaven wished.

Today, Christianity is at a dead end; they are standing at the edge of a cliff. Their savior is I, the only begotten daughter of God. Those pure leaders who believed in heaven and offered devotions recognize me.

The conclusion is that we must become a nation that stands in front of heaven and you must show the world you are a nation that received the name, God's fatherland and fulfill your responsibilities so this nation can stand at the center. You must be able to show this to the world. We can't do that with our current system. Therefore, I am rearranging the organization of the Korean HQ.

It is not the Korean HQ but is now the SHIN Korean Family Federation. This character "shin" is not for the word "new". It is a Family Federation that attends God and that attends Heavenly Parent. In order to find God's fatherland, we must change.

Therefore, we will take this country, Korea and look at it like a continent; it will be

divided into 5 districts. Those districts have the same qualifications as a nation. They will be considered nations inside the "continent" of Korea. That is why I told the old Korean HQ to come to Hyo Jeong Cheonwon. I have completely prepared a place for you to come here.

Because a district will be the same concept as a nation a church and all providential

institutions must be revived. I will have all the current heads of providential institutions come here to the Cheonwon Complex FFWPU HQ. I will combine all the institutions and see which of the 5 districts can reclaim the higher ground in national restoration. Don't look around you NOW; you must go straight forward. You must charge forward toward your goal by the shortest route. Do you understand? xxxx

(President Rev Lee Ki Seong, Vice President Joo Jin Tae)

(5 Districts Director: Rev Joo Jin Tae for Seoul-Incheon; Rev Hwangbo Gun for Kyeonggi-Kangwon; Rev Song In Yeong for Chungcheong-Daejeon; Rev Lim Jong Yeop for Honam; and, Rev Park Yong Bae for Kyeongsan-Busan-Ulsan)
