# Met God in the Mission Field

Missionary to Central  
America :Y · S

- “Missionary is a way to meet God .

It is the best place to examine your life course  
and decide whether to live a life of faith or not”

- In my entire life,

I never felt Heavenly Parent and True Parents  
so close.

# Met God & TP in the Mission Field

## Northeastern continent

- I've heard testimonies saying " you can meet God through missionary activities"  
" When I look back, every moment of my " mission was filled with the love of God and True Parents"
- During this time, I was able to meet God many times. I felt that God was always with me. It was a lot of training, but more than that, it was a tremendous blessing.

# Spiritual Children

Missionary to Asia : OE

- I was so tired of living public life.

On the half way in my mission, I decided to go back home.

I **cried** a lot everyday.

- It truly surprised me when I saw my four guests after their  
21 Day workshop. They were totally different people,  
happy and shining.

- “When I saw their beaming face, I could feel sincere happiness of God in me and **I was truly glad for witnessing them.**

- I was amazed to see how much people can change  
through meeting Heavenly Parents and True Parents.

# Spiritual Children

Missionary to Asia :  
OE

- My spiritual child left **40-day workshop** before he could complete.
- I prayed and that's when **God's heart** flow into mine.
- I realized it was the same love **my parents** gave me. And it ached my heart deeply, realizing how much sadness God felt whenever I betrayed God's heart.
- Through the experience of loving my spiritual child, I could really feel **the deep love of parents**. **My spiritual children gave me courage** to complete my mission, and **witnessing became a joyful experience**.
- During the last month, I was able to witness **with my spiritual child** and the time with her become **unforgettable precious memory**.

# One Family Under God

Missionary to Asia : T · R

- There were full of hardships and pain people felt which I never knew before living with them and sharing their lives.
- At home we cannot really relate to the news of countries far away. However if you have family in that country, its no longer unrelated.
- I have experienced what it is like to live in a world of one human family . I cannot deny and I cannot ignore this truth. Even if we have different language and skin color, we can be a family.

# Education & training of members in the 2<sup>nd</sup>-gen. realm

# Purpose of the Dispatch of Cheon Il Guk Youth Missionaries

- Education and training of members in the second-generation realm.

1) The first goal is for them to grow heartistically and to live TPs' teachings.

2) The second goal is for them to be able to give internal and external help toward the completion of Vision 2020 by supporting activities in the field.

# Education and management of Cheon Il Guk Youth Missionaries

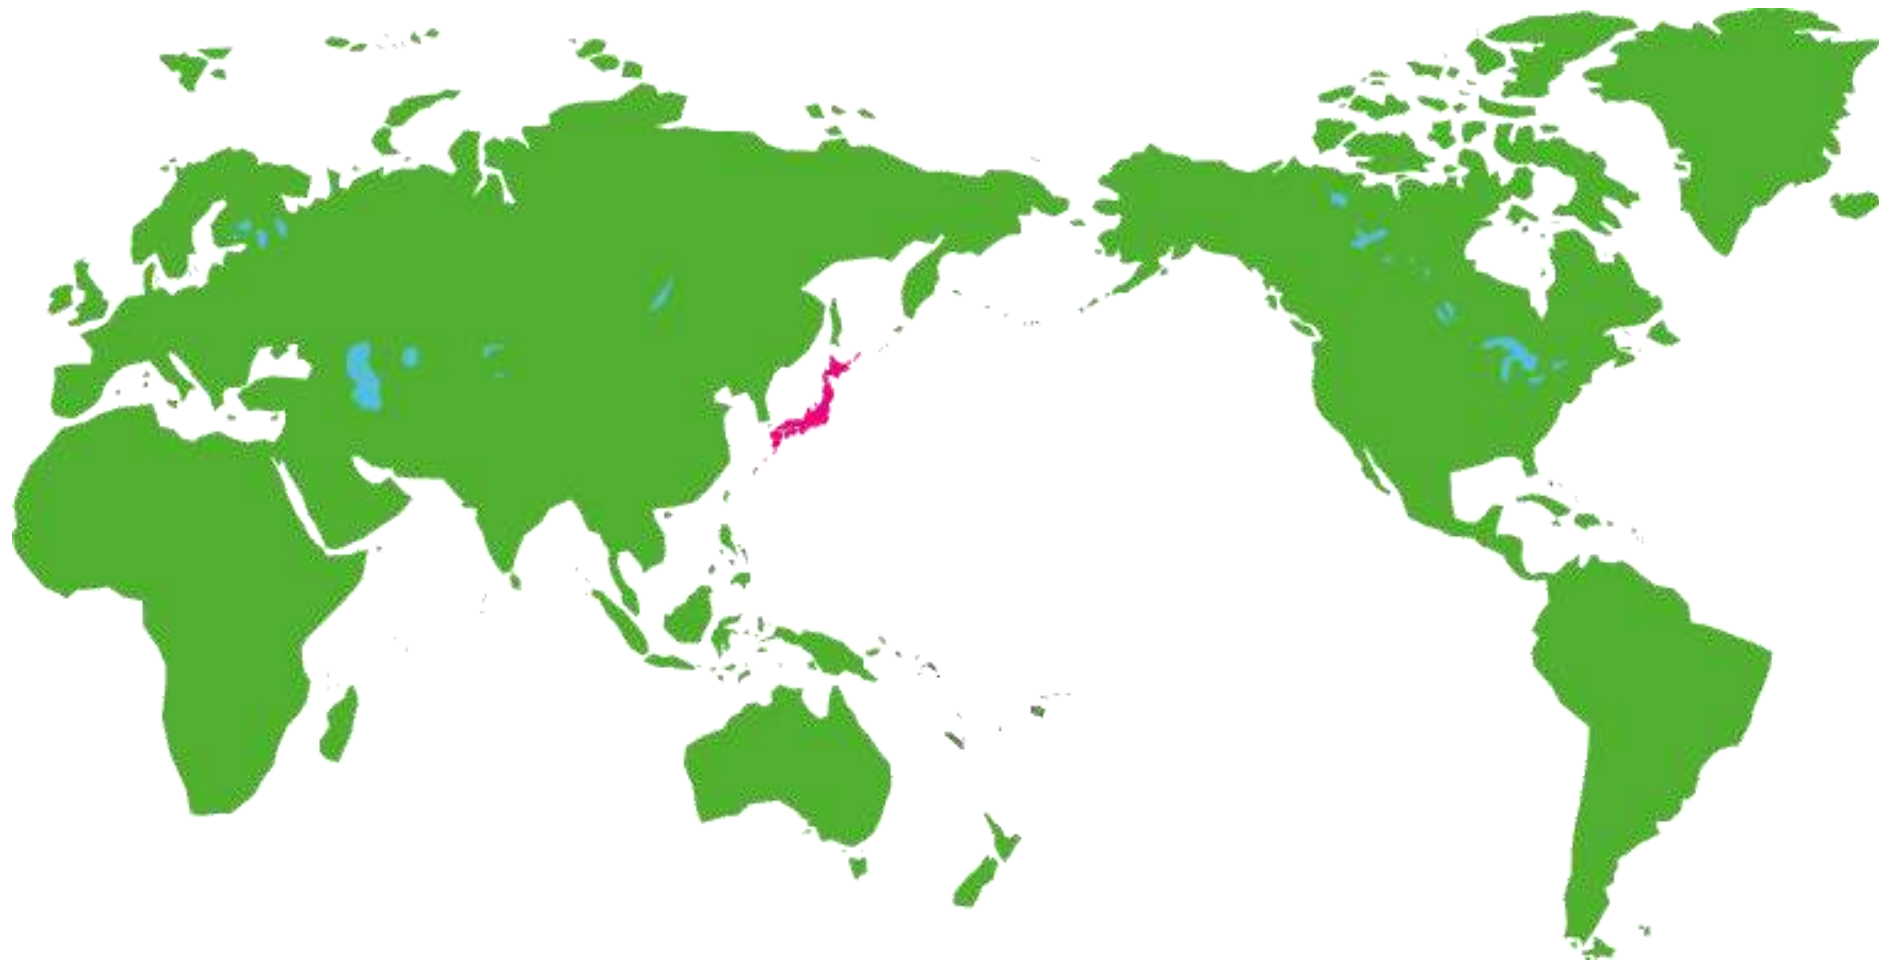

a. The main purpose of the dispatch of Cheon Il Guk Youth Missionaries, which is “the education and training of members in the second generation realm,” must be carried out through witnessing activities.

b. Activities other than education through witnessing must be moderated to a minimum level.

# Securing a system of education through witnessing

- Prepare to have a local member who can witness with them.
- Prepare a Divine Principle lecturer and a person-in-charge of education.
- Establish an educational system:  
2-day, 7-day workshop
